Conversations with the Authors

The Indiana IEP Resource Center is hosting a new series titled Conversations with Authors. If you are interested in learning more about trending titles directly from the authors, consider joining the conversation! Each author will provide an overview of the content within their book and how the information can positively impact educators and/or their students. A new author will be featured each month. Most sessions will take place virtually from 10:00 to 10:30 AM (Eastern Time) the last Thursday of the month from January through June. Sessions will be recorded for individuals to watch at their convenience if they are unable to attend the scheduled sessions.
